

to stop trespass from road side. House tax when imposed initially on 532 in 1920's decade, Cantt. Board authority must have had ensured and verified the validation of ownership quite well before assessment of tax on property 532. Having thus full satisfaction reg. ownership, the Cantt. Board finally imposed house tax on property 532, that is regularly being paid since beginning to date, on demand notice, (details of such tax receipts enclosed earlier along with one of the proposed plans in 1967). Tax has been fully paid upto March 2006 against 532 & 533 and nothing is outstanding. Concerned authorities are highly requested to consider the matter seriously with a spirit to fulfil/restore missing name of owner in GLR (survey 280/751 property 532 class B(3) area 405 sq. ft) by inserting name of Narain s/o Gordhan in blank space of ownership column obviating suspicions in this case on basis of the facts & documents that Cantt Board has been honestly charging the house tax, right from the beginning to date from the right and sole owner of 532 property i.e. Narain s/o Gordhan.

Requests, documents and reminders all exhibit on office record file of 532 & 533 which are enough to finalise this case. A status quo position ordered in the past by higher authority needs rational decision reg. house No. 532 which is overdue by several decades and still awaits final decision from the concerned authorities.

Cantt. Overseer's report reg. encroachment on 532 (survey 280/751) in fact, is not an encroachment, rather unauthorized constructions in the light of moral constraints.

I regardfully pay to your honour for justice, thanking you highly.

Yours faithfully

R. C. Sharma
