I beg to state that I had gone to out station for the last three months and was not able to comply with from there. However I had discussed with the office Superintendent before three months that I was not could only send the Hindi or English Translation duly certified by the Notary Public because I had already submitted the original Sale Deed for necessary action & the same was received back by me. As such if I send it again it may be filed somewhere and I may not get it back. Now the Hindi Translation copy duly attested by Notary Public is again submitted herewith and moreover I also knew that Powers to change the Government land Register rests with the Cantonment Board as informed by the M.E.O. Rajasthan Circle, Jaipur.

Will you kindly therefore take necessary action in this connection so as to re-classify the land in favour of the owner, under signed, at your earliest as already represented for the last few years and the Property Tax etc had been ^{also} charged to the owner from the very beginning till late when the tax was not meant for the open land. Hoping to receive the approval for it very early please.

Thanking you good self highly
